## SALOON FIT FOR CHILDREN—SMITH

Complete Cleanout of Former Booze Dispensaries Is Plan.

[BY ASSOCIATED PRESS.]

Madison.—The saloons of Wisconsin are to be made places fit for children to visit, W. Stanley Smith, prohibition commissioner, declares in announcing his intention to strictly enforce provisions of the new state enforcement measure which calls for cleaning out of former liquor establishments.

Only three days in the enforcement of such are to be done away with under dictum of the prohibition commissioner and the attorney general. Evidence of a legal battle over this order of the enforcement officer based on the new statute, sprang up shortly after it went into effect.

Not Taken Seriously.

Saloonkeepers have organized in Sabeoyan and Manitowoc counties and have raised funds to fight the new law to the supreme court before disturbing their bars. Their attitude is not to be taken seriously, in the opinion of Commissioner Smith, who points out that the constitutional right of the state to provide definite regulations in return for a license is well established.

Some sections of the state are complying with the new regulations without objection, saloonkeepers removing their bars completely or placing them in compliance with the law as interpreted by the attorney general.

This recent interpretation declares that bars of maintained, cannot be used, and in addition must be so located as to have the space behind them completely open to view from the street.

Open to Public View.

"We believe that by opening up saloons in this manner the temptation to engage in illicit sale of liquor will be completely done away with," Commissioner Smith said. "Saloons are the greatest violators of the prohibition laws, and when properly licensed and opened to public view they will not be in a position to continue their illicit trade without easily being detected."

The commissioner reports a general cooperation of district attorneys of the state, which he says is doing much to help him enforce the new measure.

DO YOUR BANKING WITH THE ROCK COUNTY BANK OF JANESVILLE

Your money, carefully saved and entrusted to the Rock County Savings & Trust Co., cannot be used except as the State of Wisconsin dictates. A body of laws regulate in detail the operation of Trust Companies, and throw unusual safeguards about your money.

An ordinary bank may re-loan your savings to a business man, a firm or a corporation on its promissory note, but a Wisconsin Trust Company such as this must take double security. Not only must it have the borrower's note, with his moral and financial responsibility behind it, but it must also be protected by deposit of a real estate mortgage, bonds, or other personal collateral of greater value than the amount borrowed. This Bank could not loan a dollar to its best customer on its note, without this double security.

No Trust Company in Wisconsin has ever failed.

With the state thus protecting you, an interest-bearing savings account in this Trust Company is absolutely security. Your account is solicited.

## OLD 13TH AGAINST REMOVAL OF HOME

Aged Civil War Veterans Pro-  
test Abandonment of Mil-  
waukee Site.

Old veterans of the 13th Regiment who met in annual reunion at the court house here Wednesday afternoon, were seen in passing. Eleven of the members present last year had died, and as each veteran shook hands with the other, the grip was hearty, as they felt it was perhaps the last. One of the veterans said: "The boys are going fast now. The boys are going fast now."

Fewer are able to come each year, but the lack of numbers did not cause a lack of interest. For all those present Wednesday were "boys" once more to each other and the sentiment was expressed by more than one that it was the best meeting they had ever had.

**Adopt Helms Street Motion.**  
The heartiness of the "boys" when a resolution was adopted concerning the Old Soldiers Home in Milwaukee, showed their determination to keep the veterans at this home should be removed. E. B. Helms, street, Lake Mills, formerly of Janesville, a member of the 13th regiment of regulars, made a motion, passed unanimously, to adopt a resolution and send it to the representative in congress, stating that the 13th regiment is in favor of keeping the Milwaukee home.

Another motion in favor of the bill now pending to increase the pension of Civil War veterans to \$75 and the pension of the widows to \$50, was passed.

**Jefferson County Reunion.**  
Several expressed their intention of going to the reunion of the veterans of Jefferson county being held at Jefferson, Thursday. E. B. Helms, street, Lake Mills, formerly of Janesville, a member of the 13th, and John Hansen, William Hansen and Mr. Helms, all came down from Lake Mills. E. B. Helms, street, Lake Mills, formerly of Janesville, a member of the 13th regiment, was also present.

**See Dutton Pictures.**  
Following the roll-call, to which almost each member responded with some reminiscence of early days, pictures of Brother Joseph Dutton, formerly of this city, now in charge of a leper colony on the Malakal Islands, were shown and distributed by E. F. Lewis, who keeps up a correspondence with him.

Cigars were passed to the veterans, donated by the Rotary club. Few of them smoked, but many urged to "take one along" to give to someone else.

**P. L. Roberts, Albany, of Co. "A,"** the 13th came in late, after the roll-call, and visited with old friends. Several wives accompanied their husbands, among whom were Mrs. M. and Mrs. J. H. West, Evansville.

## Hens Caught Loafing Are Drawing Death Sentences

Laws against vagrancy are being applied to chickens in Rock county as a result of the culling demonstrations held by the county agent. The man who does not work and is caught loafing is sentenced to the penitentiary. The hen who does not lay eggs, goes to the butcher shop.

A hen may go around cackling for a month or year and never lay an egg, and the owner be none the wiser unless he keeps up the modern ideas of poultry management. While culling should be continued throughout the year, the best time is in August and September. Culling time should be based somewhat on the governing market prices for fowls.

**Keep Only Healthy Hens.**  
Culling properly means using several tests, all fairly accurate if intelligently and carefully applied. For this reason it is wise to send for Department Circular 41, which may be had upon application to the Division of Publications, department of agriculture, or enlist the help and advice of experienced persons near by. Briefly, the hens to cull are those that are sick, weak, inactive, lacking in vigor, poor eaters, with shrunken, hard, dull, or whitish colored combs; with thick, stiff pelvic bones that are close together; small feet or distance between feet.

**WOMAN OWNS AND  
MANAGES BARBER  
SUPPLY BUSINESS**

According to Mrs. Kuhlman, the old idea which has always existed about business dealings with a woman being very unsatisfactory is being eliminated from the minds of most people.

## LAW ENFORCEMENT URGED ON WOMEN

Keynote Struck by W. C. T. U. Convention Opens in San Francisco.  
[By Associated Press.]  
San Francisco—Women of the country were called on to give their vigorous support to law enforcement by Miss Anna A. Gordon, president of the National Woman's Christian Temperance Union, at the opening of the 15th annual convention here Thursday.

"This was the keynote struck by Miss Gordon in her address on 'The Expanding Program of Our New Crusade.'"

"We are not discharged from our peaceful anti-alcohol warfare of the past four decades," Miss Gordon declared, "distributed by 500,000 W. C. T. U. members. 'We cannot lay down our arms.'"

"Much territory remains to be possessed for our foundation principles of total abstinence and prohibition."

**Liquor is Law Breaker**  
"We thank God for the eighteenth amendment that legally breaks down the bulwarks of our enemy. But today he fights in the open. It is very much alive as a law breaker and a beer bolshevik. He would like to make the W. C. T. U. believe that its warfare against alcohol is accomplished and that law enforcement need no longer be our great objective."

"Our chief danger lies in the apathy and indifference of many good people who aided in securing the law."

"An unceasing obligation, Miss Gordon declared, rests upon every law-abiding citizen bravely to cooperate with federal and state enforcement officials and to work for the election, regardless of party divisions, of candidates who believe in prohibition and its enforcement."

Today, she added, the United States is a unified laboratory where the findings and declaration of eminent European and American scientists, economists and sociologists concerning the dangers of alcoholic drink and the benefits of prohibition are being successfully tested.

**Must Show World**  
"All the world is looking on," Miss Gordon said, "and will judge prohibition by the brand that is 'brought Made in America.' To enlighten the family of nations we must help hold aloft the brightly burning torch of a well enforced, successful prohibition law. We must still crusade. We must still dare. Comrades, we must 'carry on.'"

Referring to her recent trip to South America, Miss Gordon said that prohibition was a live issue in Chile, Argentina, Brazil, Paraguay and Uruguay and that the presidents of Chile and Uruguay were called in the prohibition movement.

Sentiment for world disarmament, the W. C. T. U. leader declared, must be the first step in the march to peace. "Unceasingly be created and constantly kept at white heat."

Langdon pitched consistent ball for the winners, while Robert Cunningham threw them across for the single most. The game was featured by the heavy hitting of David Berger, Ryan and McDonald. Single men threaten to protest on the grounds of poor decisions.

## CAN SENATOR SIT IN DISARM MEET?

Question Raised by Constitutional Lawyers; Lodge Delegate in Question.

By DAVID LAWRENCE.

Copyright 1921, by Janesville Gazette. Washington.—Is Henry Cabot Lodge or any other member of the senate eligible to represent the executive branch of the government in the forthcoming negotiations with other governments for disarmament and the settlement of the Eastern question? Constitutional lawyers point out that there is a clause in the federal constitution which makes any member of the senate or house ineligible to hold office under the orders of the president without resignation of their seats in the legislative body.

There is what the federal constitution says under Article One: "No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created or the emoluments whereof shall have been increased during such time; and no person holding office under the United States shall be a member of either house during his continuance in office."

The purpose of the foregoing article, as explained by the constitutional lawyers, was to effect a complete separation between the executive and legislative branches of the government. When President McKinley appointed Senator Bryan of Maine and Cushman Davis of Minnesota, both republicans, to be members of the American peace commission which negotiated a treaty at Paris whereby the Spanish-American war was concluded, the point was not raised until after the treaty had been signed. Then a debate arose in the senate as to whether members of the senate who had composed the peace commission had a right to vote as members of the senate to ratify that same treaty.

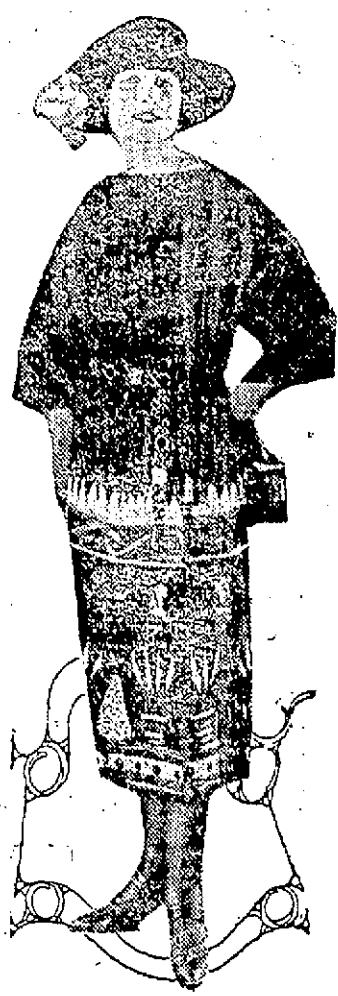

Line to Senators. So much weight was attached to the controversy that when President Wilson was urged to appoint some members of the United States senate to serve on the American peace commission at the conclusion of the European war he called for an opinion from the lawyers of the state department and they brought out the fact that the constitution would seem to make such action inadvisable. President Wilson therefore did not appoint anybody from the senate.

The question will probably arise in an entirely unprecedented way when the disarmament conference is in progress for Senator Lodge or any other senator appointed to serve on the president's commission will be temporarily appointed minister plenipotentiary in behalf of the United States government, subject to the instructions of the president and secretary of state, while at the same time there will be debates in the senate in which Mr. Lodge, as chairman of the foreign relations committee, might be obliged to participate.

After Disarmament. There are those who claim that no member of the present senate would be eligible to serve, even if he resigned from office temporarily, as the constitution says no member of the house or senate can be appointed to a civil office "during the time for which he was elected." Some have construed this to mean that resignation would be ineffective and that a member of the senate or house would have to wait until his term actually expired before accepting office under the executive branch of the government. When Senator Knox resigned his seat to become attorney general in the Taft cabinet his salary was automatically increased, but it was found that he could not accept the increase because it was granted during the term for which he was elected.

A Fitchburg Question. There has always been a good deal of controversy over the subject of usurpation by one branch of the government of the powers of the other, and in the handling of foreign affairs a particularly delicate situation has been confronting the Harding administration. Congress insisted on the right to make peace by resolution and even to indicate in that resolution the basis under which the executive branch of the government should negotiate peace with Germany. The movement for a disarmament conference started in the senate with Mr. Bryan of Idaho. The sentiment of Capitol Hill is in favor of senate participation alongside the executive in

## Orfordville

Orfordville.—Upwards of a score of members of the Boys' County Corn club were in Orfordville for a short time on Tuesday evening.

They visited the farms of J. E. Egan, Charles Day and Herman Reese, and then started for Shapere where they were scheduled for the night stay. They were accompanied by J. K. Arnot, county Y. M. C. A. secretary, and Mr. Glasco, county agent. W. W. Hadley and George Gunder, from the Pacific Garden Mission, Chicago, held an open air meeting on the streets here on Tuesday evening. Both men claim to be reformed drunks and are devoting their time and talents for the betterment of society. Both have interesting addresses and were listened to by a good sized audience.

One of the heaviest rains, accompanied by heavy thunder and sharp lightning passed over this section of the county at about half past four on Wednesday morning. About three and one-half inches of water fell in less than an hour, but there was no wind and no damage from lightning has been reported. About half past twelve on Wednesday noon another heavy shower passed over, in which about three-fourths of an inch fell.

Rockford, Ill.—Sammy Mandell, Rockford, Ill., bantamweight, outpointed Willie Green, Chicago featherweight, in a match at Camp Grant.

All important understandings with foreign governments, whether or not they require ratification by the senate, will be made in the senate on the question of the right of the chairman of the senate foreign relations committee or any other member of the upper house to sit in a commission under instruction from the executive branch of the government.

## COOPER WILL FIGHT FOR HOME OF VETS

Congressman to Oppose Removal of Old Soldiers from Milwaukee Home.

Removal of Civil War veterans from the Old Soldiers' Home at Milwaukee to make room for the government hospital for men disabled in the World war "would be a great wrong," declares Congressman Henry Allen Cooper of Wisconsin in a letter to Lucian O. Holman, manager of the Janesville Chamber of Commerce.

To take these veterans from their home in their declining years would be doing them great harm, he states. "I shall do my best by voice and pen to have the order rescinded," he writes.

With this situation looming, Mr. Cooper says that he will endeavor to have the proposed hospital for World War men of the Great Lakes district placed in Janesville. In writing to Mr. Holman, he says that he will inform the government that Janesville's offer of property for this purpose is still standing.

"I have heard considerable comment against the plan of the government to remove the veterans, I believe, to Dayton, Ohio, where there is a large number of them," Mr. Cooper writes. "I have informed Mr. Cooper that Janesville's offer made when they were considering sites for the World War disabled still stands."

Dispatches from Washington several days ago stated that Senator Irving Lorentz of Wisconsin had taken action that temporarily halted removal of the veterans.

# Largest Soap Makers in the world revolutionize washday

## Sensational new product saves you hours of back-breaking rubbing

NO more of the cruel strain that women have been subjected to for centuries!

Those hours of rubbing you used to do got the clothes clean but it was a terribly long, hard job.

Soaking has always meant less rubbing.

After years of experimenting, the largest soap makers in the world, by a special process, have perfected a soap product which soaks clothes clean. This marvelous product, Rinso, is a perfect combination of pure, cleansing materials, that loosen and dissolve the dirt from even the heaviest pieces of the weekly wash, without injury to a single fabric. You do not have to rub any but the most badly soiled spots such as collar bands, and cuff edges, and those just lightly.

These statements would be hard to believe if they were not made by the makers of Lux.

Lux made it possible to launder silks, woollens and all delicate fabrics without injuring them. Now this new product, Rinso, makes it possible to do the regular weekly wash without hours of back-breaking rubbing.

Let Rinso soak your clothes sweet and clean in a few hours. See the simple yet full directions given at the side.

Don't rub your youth away. Get a package of Rinso today at your grocer's or department store. Lever Bros. Co., Cambridge, Mass.

## GERMAN BANK IS READY TO FINANCE MORE REPAIRATIONS

New York.—The German Reichsbank, known under the Hohenzollern regime as the Imperial Bank of Germany, has been authorized to finance here in anticipation of further payments due England and France. Some 200 cases of bar silver valued at about \$350,000 have been received here by the Deutsche Reichsbank, representing the German government. It is thought that fully one-quarter of the August reparations settlement, which may amount to \$200,000, will be paid in silver metal, of which Germany is said to have large supplies. Reports from abroad state that German bankers find it more advantageous to ship silver to this country than to hypothecate the metal at home against foreign credits. Some of the gold which Germany is to pay through this market this month is likely to take the form of bullion melted down from French and Russian coin. Germany has already paid to France much of the gold which she extracted from that country as part of her indemnity after the Franco-Prussian war and which for many years was part of the imperial governments' "war chest."
